- **Development Tools:** Visual Studio Code, Wordpress, Magento 2.4, Postman, MySQL workbench SQL developer

## PROFESSIONAL EXPERIENCE

### **FullStack Developer Freelancer**

*Alberta,CA (Sept 2023 - Present)*

- Developed cutting-edge Landing pages using frameworks like NextJS and GatsbyJS with CMS tools like Sanity.io and GraphQL, seamless authentication and user profile with Clerk
- Managed the software development life cycle for various scaled projects, ensuring timely delivery and meeting all project milestones.
- Integrated a wide range of third-party services and components like payment gateways, geo-location services, and social media logins
- Developed and launched a new LMS platform using React.js and Node.js, resulting in a 25% increase in online sales within the first three months.
- Monitored system health, debugged performance issues, and optimized applications using both server-side and client-side techniques

### **Fullstack Developer / Web Developer**

*VebCommerce, Alberta,CA (July 2022 - August 2023)*

- At VebCommerce, I played a pivotal role in developing APIs and contributed to building scalable AWS cloud infrastructure, through effective Agile collaboration.
- Implemented security best practices for AWS services such as IAM, KMS, and CloudTrail, resulting in a 100% compliance with industry security standards and a 0% security breach rate.
- Implemented software solutions for a Python-based application, resulting in a 20% increase in system efficiency and a 10% reduction in operational costs.
- Collaborated with cross-functional developers on the team to develop and maintain automated tests for the web application, resulting in a 20% reduction in bug-related delays and a 30% increase in overall code quality.
- Developed multiple APIs, encompassing data modeling, business logic, frontend components and unit testing using Jest framework.

## **Web Developer**

*Lofcart Alberta Ltd, Alberta, CA (Jan 2021 - June 2022)*

- At Lofcart Alberta Ltd, I was instrumental in redesigning the website architecture and supporting Magento 2 migrations, which led to a 25% decrease in bounce rates.
- Utilized source control, automation tools, and CI/CD processes to improve development cycles and optimize production releases
- Providing maintenance and support for Magento 2 Migration, Upgradation, plugin development and updating security patches.
- Frontend development using ReactJS as a framework and Redux as a state pattern which utilizes Magento REST API.
- Developed and maintained documentation for the system, improving team efficiency and reducing onboarding time by 30%.
- Optimized a web application for performance and scalability, resulting in a 30% reduction in page load times and a 25% increase in user engagement.
- Optimized application performance by identifying and refactoring inefficient code, resulting in a 20% increase in speed

## **Education**

**Computer Programmer, Diploma Program, Co-op**  
Georgian College, Barrie, ON

September 2018- May 2021

## **Certifications**

- Google Ads Fundamentals Certification. Oct 2023
- Smartphone Repair Master Technician. Oct 2021
